NDMC Vision for Smart City is :
“To be the Global Benchmark for a Capital City”

About NDMC

In 1911 the British Government decided to shift the capital of India from Calcutta to Delhi. On 12th December 1911, it was announced that Delhi would be the place of residence of the Viceroy and the new administrative centre. A Committee was constituted to select the site for the new capital. A number of sites were examined and finally Raisina Hill was selected for building the new capital of India.

On 15th February, 1931, the new capital was officially opened. In the year 1932, the New Delhi Municipal Committee became a 1st class municipality. It was entrusted with supervisory powers to look after all the services and activities it was called upon to undertake.

In the year 1916, this municipality was discharging the responsibility to cater only to the sanitation requirements of the workers engaged in the construction of the new capital. From 1925 onwards, the functions of the municipality increased manifold. In 1931 functions in connection with buildings, roads, sewers, medical and public health arrangements were transferred to the Committee. Further in 1932 works of Electricity distribution and Water supply were also transferred to this civic body.

During the last ninety years of its existence, this Civic Body has grown into an organization with the responsibility of beautifying the city and providing civic services. This civic body has always laid stress on quality of service. During this period the Municipality provided an underground sewer system in the whole of its area. There were a number of open Nallas, which had become breeding grounds for malaria. All big open nallas have been covered and reclaimed land has been utilized for construction of public utility services as well as greenery.

Legacy of NDMC Trees

The trees in the NDMC Are From the Time of British Person. Britisher have Sapling many fruits and herbs tree in the NDMC area to make the Area greener.

NDMC plants 27000 saplings at 14 Circle of New Delhi area
About 5000 NDMC work force participated in the plantation drive

In a significant move, the NDMC has launched a massive plantation drive in its all 14 circles in New Delhi area and planted over 27,000 saplings of different varieties of trees despite of heavy rain today. About 5000 employees of NDMC comprising with 100 Beldar, 100 Safaikarmchhari and 150 Mali in each circle under the supervision of one HOD of NDMC had participated in Tree Plantation programme. As many as 61,000 saplings had been planted under the drive within a period of 10 days.

During the current monsoon season the target for planting of 2 Lac trees has been fixed by NDMC and out of these 25,000 will be large and medium trees while 1,75,000 trees will be of ornamental and herbal. The herbal trees will include – Ashwagandha, Brahmi, Haldi, Arjun, Awala, Alovera etc. will be planted at Shubash Park at Netaji Nagar, Lodhi Garden, Nehru Park at Chanakypuri and Sanjay Jheel at Laxmibai Nagar.

The variety of large and medium trees will include as Neem, Peepal, Jamun, Gulmohar etc. and will be planted across the road sides as avenue trees and major parks and garden in New Delhi area The Council has invited the residents of New Delhi area to register online on NDMC website and mobile app “NDMC311” for getting sapling of trees of their choice free of cost for planting the same in their premises, streets, yards and offices. The scheme is for plantation location in NDMC area only. The officials of horticulture of NDMC will extend the necessary information and know-how about the selection of the saplings as well as planting the same in the concerned areas.

As many as 61,000 saplings had been planted under the drive

As many as 1000 saplings of various varieties of trees have been planted by devotees of Prajapita Brahm Kumaris and NDMC officials jointly at Talkatora Stadium premises, Talkatora Garden, link road towards Shanker Road, Park Street and Mandir Marg early this morning.

To mark the birth anniversary of Shaheed Chander Shekhar Azaad the NDMC Chairperson planted 'Rudraksha' tree in the memory of the great martyr at Shaheed Bhagat Singh palace in New Delhi yesterday.

Similarly, the RWAs and MTAs of various areas of New Delhi like Gole Market, Lodhi Colony, Sarojini Nagar, Laxmibai Nagar, Moti Bagh had also planted over 5000 saplings of trees in their residential complexes, markets surroundings and other adjoining areas like lanes or by-lanes in New Delhi colonies.

Hundreds of NDMC school children took part in the Tree Plantation Drive and planted over 2000 saplings in the premises and surroundings of their schools.

NDMC has achieved the half goal by planting 1.15 Lac saplings against the target of 2 Lac trees fixed for the current rainy season

Tree Cutting Machines of NDMC

Benefits of Tree Trimming

Here Are 6 of the Top Reasons to Prune or Trim Your Trees:

1. Proper trimming can improve the health of your tree(s) by eliminating branches that are dead or dying. These branches are often dangerous, and removing them reduces the risk of harm to your family and damage your property. This will also prevent further decay.
2. Improves the overall appearance and structure of the tree, keeping it from developing broad or weak branches. Trimming prevents limbs from growing with weak crotches, or eventually crossing each other and competing for space in the crown.
3. Trimming your tree(s) will increase sun exposure and air circulation throughout the tree and underlying landscape, which will improve the tree's health. Just be sure to watch out for signs of sunscald, which often affects leafless deciduous trees in the winter time.
4. Pruning fruit trees can actually improve the size and quantity of the crop. Fruit trees should be pruned in late winter for shape and to expose the center of the tree to sunlight.
5. Newly planted trees should be pruned to compensate for root loss and to begin training the tree for shape.
6. Tree trimming can also simply open up your property and improve your view.
